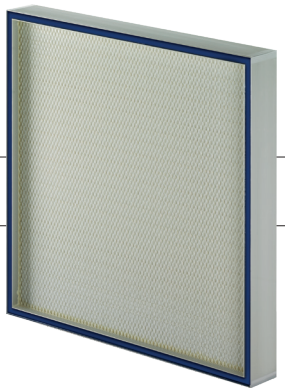
THE WORLD LEADER IN CLEAN AIR SOLUTIONS

AstroCel® II



HIGH QUALITY HEPA FILTER

Features and Benefits

- Dedicated cleanroom and cleanbench filters
- Filter classes H14, U15, U16 and U17 to EN1822
- Lightweight and easy to install
- Filters for ultra clean environments

AstroCel® II Dry Seal

AstroCel II one-piece gasket dry seal filters are designed for use in cleanrooms, cleanbenches, biohazard benches and other clean work stations. These filters ensure the necessary levels of contamination control in cleanroom environments.

The filters are compact, lightweight and easy to install in open plenum, terminal and in-line housing systems and cleanbenches.

AstroCel® II Fluid Seal

AstroCel II Fluid Seal filters feature an integral groove filled with gel at the air inlet side which ensures a perfect seal in housing systems. Like all AstroCel II type filters, they are compact, lightweight and easy to install - particularly in terminal hood and fan filter modules.

AstroCel® Knife Edge

The AstroCel II Knife-Edge filters provide a perfect seal in liquid channel ceiling grid systems. Due to their high efficiency classification, the filters are extremely effective in providing the necessary levels of contamination control in cleanrooms. The filters are available in a wide range of knife-edge sizes to meet various application requirements.

All Astrocel II filter executions offer many benefits:

- Factory tested to meet the most stringent legal and industry requirements.
- High efficiency safeguards processes, products and workers.
- Functional reliability: leak or scan tested.
